

## Distance - Time - Speed

1. The tourist walked for 4 hours at a speed of 1.5 m/s. How far did he go?

---

---

---

---

---

---

2. The bee flew 240 meters in 80 seconds. How fast was she flying?

---

---

---

---

---

3. The train travelled 140 km from one station to another in two hours. How fast was it moving? Express the answer in meters per second.

---

---

---

---

4. The spacecraft flies at a speed of 8000 m/s. How far will it fly in two hours?  
Express the answer in meters per second.

---

---

---

---

5. The beetle crawls with the constant speed - 4 cm / s. How long will it take to crawl 28 cm?

---

---

---

---
